

STICK STEER

One-Handed Steering Accessory Controller

Sticksteer is a small wireless removeable keypad that attaches to your steering wheel to give you fingertip control of up to 11 functions without taking your hand off the wheel.

The ergonomic steering spinner fits into the palm of your hand and your fingers can wrap comfortably around the device with your thumb controlling the functions.

- Quick release for fast removal and refit
- Back-light illuminates for night driving
- Day-light sensor turns on headlights automatically
- Controls include; turn signal indicators, warning lights, headlights, high beam, flash, intermittent low and high speed wipers, windshield clean rear wipers, horn
- Ergonomic design
- Quality, reliable product made in Italy
- Will suit practically any vehicle

Guidosimplex, the leading manufacturer of driving aids world-wide, has been creating cutting edge solutions for drivers with disabilities for over 50 years.
