

LIFT MASTER

TRANSFER

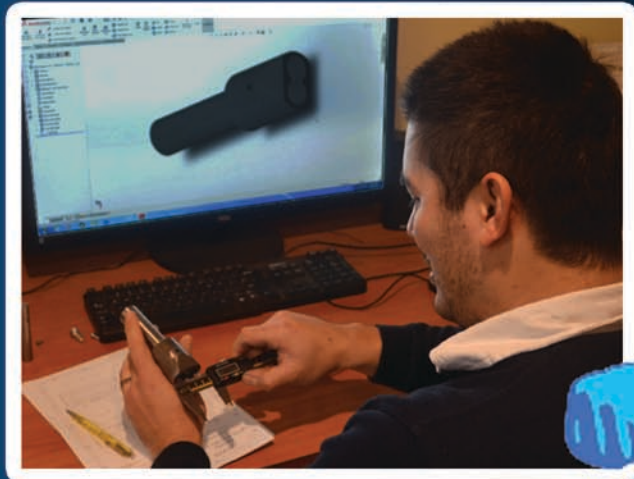

ELECTRONIC LIFTING TRANSFER SEAT

The Liftmaster Transfer is a simple and robust solution for assisting with transferring in and out of high vehicles

Think that your days of off-roading are numbered...
Think again!

- Prevents excessive strain on your shoulders while transferring. A wheelchair users worst enemy
- Transfer seat folds away when not in use or can be completely removed in seconds without the use of tools
- Proudly Australian made
- Precision CNC machined and laser cut components
- Impressive power to weight ratio, unit weight is less than 15kg but capable of lifting 130kg
- Potential for 500mm of travel, depending on your vehicle
- Universal fitting for most vehicles
- 3 year warranty
- Optional Key Fob Remote available
